

Odyssey of the Mind 2009-2010 Signup

There are 4 Odyssey of the Mind programs, which are:

- **JPL Science**. Work together in teams to construct a cardboard bridge, the 2009 JPL invention challenge.
- **Robotics**. Work in teams to build and program robots, using Lego Robotics Mindstorms software.
- **Short and Spontaneous**. Short projects and games to help students think in creative ways.
- **The Play**. In small groups, students write a script, create scenery, props and costumes, then perform their play.

Please review the Summer Lion Times article, on the LCE PTA website or in the PTA Summer Mailing, for more detailed information about the programs, fees, and scheduled dates.

Participants will be selected by lottery.

For the JPL science session, parents will be notified by e-mail of student selection by Sept 28th. For the remaining programs (Robotics, Short & Spontaneous, and the Play) an e-mail will be sent to parents during the week of October 19th. Parents must send in the program fee to confirm the student's participation. If the fee is not received by the specified deadline, then the spot will go to a student on the waitlist.

Please complete the signup form below, detach on the dotted line, and return as described below, by Friday, Sept. 18th
